

Printing Documents Using Wireless Printing

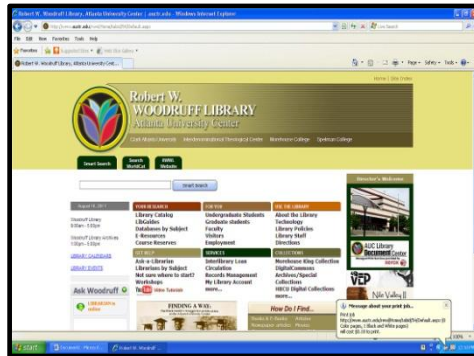

1 Print your document as you normally do. Choose from the RWWL B&W or Color Printers.

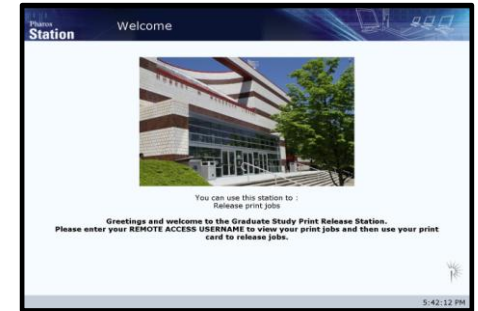

2 Identify yourself by entering your name (password is not required). Click Print. You will need to enter your name at the printer release station.

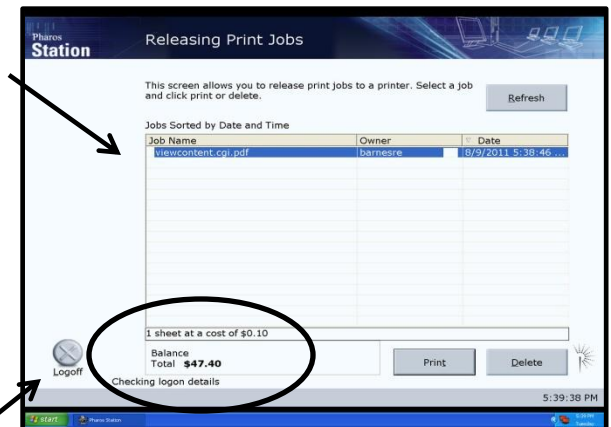

3 Pharos will send a message indicating how many B&W or Color pages were printed and the total cost of the print job.

4 Retrieve your print job at any print release station in the building. Enter your name.

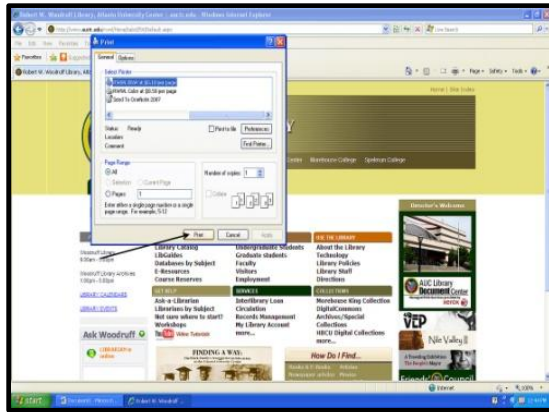

5 Choose your print job. Place your Smart Copy card in the card reader. Click **Print**. After printing Pharos will show the remaining balance on your print card. Click **Logoff** to eject your card from the print card reader and to clear the screen.

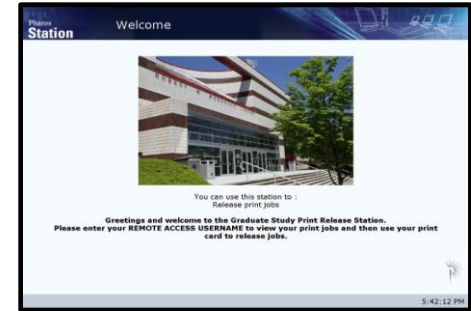

How to Print from an RWWL Workstation Using the Pharos Print System

1 Print your document as you normally do.

4 Retrieve your print job at any print release station in the building. Enter your Remote Access account username.

2 Pharos will send a message indicating how many B&W or Color pages were printed and the total cost of the print job.

5 Choose your print job. Place your Smart Copy card in the card reader. Click **Print**. After printing the remaining balance on your Smart Copy card will be shown. Click **Logoff** to eject your card from the print card reader and to clear the screen.
