Library Strategic Plan
2020/2024

Approved by Board of Trustees
April 2020
In September 2019, the AUC Robert W. Woodruff Library began the process of strategically thinking and planning for the work that must be accomplished over the next four years to strengthen support in student learning and academic success.

The Board of Trustees (BOT) and the Library’s leadership team participated in a Strategic Planning Retreat on January 25, 2020 to discuss environmental scan findings from: stakeholder interviews, student and faculty focus groups, trend analysis research results conducted by the Library’s Strategic Planning Steering Committee (SPSC), survey results, and input provided from external experts. The BOT recommended changes to the current mission and identified five new priority areas. These changes, along with new goals and strategies, will frame the Library’s strategic implementation plan and will guide the investment of staff energies and resources over the next four years.
