

Biography of Dr. Muhsinah Lateefah Morris

Meet the first ever Metaversity Director, **Dr. Muhsinah Lateefah Morris**. A BS chemistry graduate of the HBCU Clark Atlanta University, she obtained an MS & PhD from the Harvard of the South, Emory University, in Biomolecular Chemistry. Dr. Morris has been part of and leader of Morehouse's Metaversity project since the Spring of 2021. She has won numerous distinguished honors, including 2025 Leading Woman in AI by ASU+GSV, 2024 XR Women Global Trailblazer of the Year, 2023 Atlanta Technology Professional Innovator of the Year, 2023 Top 100 Women in Emerging Technology, Teaching Excellence at Morehouse College, Best Emerging Technology and Innovation from CBRE, First Place Unconventional Innovation in Industry by T-Mobile, and 2022 STEM Women Atlanta Educator of the Year.

She resides in McDonough GA with her husband and five sons. One of her sons has autism and she advocates for the entire autism community as a member of the Community Advisory Council and advocacy Ambassadors for Autism Speaks. She's a VR pioneer in education and is transforming learning globally. She is affectionately known as Dr. M.O.M. (Molder of Minds) by all her students. She continues to mold the minds of educators and students globally in the Metaverse. She is a member of the XR Advisory Council for the XR Association and Futurist Council for Jobs for the Future (JFF). Her goal is to authentically transform the educational system for our future leaders using immersive technologies in the Metaverse. She currently trains both pre-service and in-service educators on how to create and optimize their own institutional Metaverse Culture. More recently, she founded Metaverse United, LLC where she helps people find where they belong in the embodiment of the internet called the Metaverse. Learn more at UnitetheMetaverse.com.
